

# SWAB A CHEEK SAVE A LIFE

Members of the Jewish Community Need Your Help

Avi, 33 years old

Elissa, 26 years old

Zack, 20 years old

Amy, 17 years old

Each year, thousands of patients suffering from leukemia and other blood-related disorders seek donors for bone marrow transplants. Since tissue type is inherited, a patient's best chance of finding a genetic match lies with those of similar ethnic background. Avi, Elissa, Zack and Amy are of Jewish ancestry, but people of all backgrounds are encouraged to be tested. A simple cheek swab is all it takes to join the registry.

**IT ONLY TAKES SEVEN MINUTES TO SAVE A LIFE !**

**SUNDAY AUGUST 1<sup>ST</sup>, 2010**

**9:00 AM to 3:00 PM**

**YOUNG ISRAEL OF SCARSDALE**

**1313 Weaver St • Scarsdale NY**

**FOR MORE INFORMATION CONTACT ALAN RICE AT:**

**914-355-0156 ● [giftoflifedrive@aol.com](mailto:giftoflifedrive@aol.com)**

Registration involves a simple swab of cells from the inside of the cheek. (No blood is drawn at this stage). Donors must be between the ages of 18-60 and in general good health, meet the guidelines and willing to donate to any patient .
